

BRAND IDENTITY SYSTEM — 2026

# GROUNZA

PROPERTY DEVELOPMENT

---

A complete strategic and visual identity system for  
Grounza Property Development — Democratic Republic  
of Congo.

**From Ground to Landmark.**

# DOCUMENT MAP

01

## STRATEGIC CORE

Brand thesis, positioning, audience architecture, messaging pillars, and brand story arc.

02

## IDENTITY SYSTEM

Logo system, colour architecture, typography, graphic language, and imagery direction.

03

## APPLICATIONS

Proposals, site hoarding, website, social, brochures, and stationery.

04

## MESSAGING & GOVERNANCE

Voice system, taglines, do/don't, governance rules, scorecard, and next steps.

SECTION 01

# STRATEGIC CORE

# EXECUTIVE BRAND THESIS

**Grounza exists to turn land potential into enduring built value.**

The grounded developer: practical enough to trust, bold enough to remember, and structured enough to deliver.

CORE BELIEF

Lasting property value is built from the ground up — not promised from above.

BRAND ROLE

The grounded developer and ascent partner for the DRC property market.

PRIMARY METAPHOR

Ground → Proof → Structure → Ascent → Landmark

# SHARED STRATEGIC CORE

## MARKET POSITION

# POSITIONING

**FROM GROUND TO LANDMARK.**

### POSITIONING STATEMENT

Grounza is a property development company that transforms viable land into enduring places of value through disciplined feasibility, structured delivery, and a grounded approach to growth in the DRC.

### DIFFERENCE CLAIM

Grounza develops from the ground up: practical, structured, visible — built around long-term value rather than speculative hype. In a market of promises, we deliver proof.

# BRAND STORY ARC

Every Grounza project moves through the same five-stage value-creation journey.

| 01 GROUND                                                                                                      | 02 PROOF                                                                                                | 03 STRUCTURE                                                                                | 04 ASCENT                                                                                            | 05 LANDMARK                                                                                          |
|----------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------|
| Land identification, context analysis, access, municipal realities, and infrastructure constraints in the DRC. | Feasibility studies, demand analysis, approvals, delivery logic, and commercial viability confirmation. | Project planning, capital structuring, design, partner procurement, and milestone planning. | Visible progress from site works to built form — documented, communicated, evidenced at every stage. | An enduring asset that holds value, contributes to place, and builds Grounza's portfolio reputation. |

# WHO WE SPEAK TO

Grounza addresses risk, confidence, and value across four distinct audiences.

# MESSAGING PILLARS

01

## GROUND ED VALUE

We identify and unlock the real, provable potential of land — not speculation.

02

## STRUCTURED DELIVERY

We turn development complexity into coordinated, milestone-driven, visible progress.

03

## BUILT CONFIDENCE

We create developments people can invest in, trust, and occupy with lasting confidence.

04

## ENDURING PLACES

We build for long-term place value — not short-cycle hype or market-cycle timing.

SECTION 02

# IDENTITY SYSTEM

# LOGO SYSTEM

# LOGO RULES

DO

- ✓ Use the primary lockup on all formal documents, proposals, and the website.
- ✓ Use icon-only for social avatars, site hats, favicons, and watermarks.
- ✓ Maintain navy/orange palette in all applications.
- ✓ Minimum clearspace: height of the G in GROUNZA on all sides.

DO NOT

- ~~✗ Stretch, rotate, skew, or recolour the logo.~~
- ~~✗ Add gradients, bevels, shadows, or construction clip-art.~~
- ~~✗ Use orange as background wallpaper — it is a signal colour.~~
- ~~✗ Use the icon mark without context when brand is not yet established.~~

CLEARSPACE

Clearspace = height of "G" on all sides

MINIMUM SIZE

Digital: 120px wide  
Print: 30mm wide  
Icon only: 24px / 6mm

# COLOUR SYSTEM

Navy for authority. Orange for signal. Warm neutrals for ground. Use ratio: 60% light / 25% navy / 10% orange / 5% dark.

**BLUEPRINT NAVY**

#050849

Authority, trust, structure —  
the primary field.

**GROUND ORANGE**

#FF6900

Energy, visibility, ascent —  
signal colour only.

**CONCRETE WHITE**

#F7F5F0

Premium background,  
breathing space.

**SITE SAND**

#D8C8B3

Land, plans, context, warmth.

**STEEL GREY**

#6F7278

Secondary labels, supporting  
text.

**GRAPHITE BLACK**

#111111

Formal detail, high-contrast  
type.

TYPE SYSTEM

TYPOGRAPHY

DISPLAY / MONTSERRAT BLACK 900

GROUND  
ASCENT

SECTION HEADING / MONTSERRAT BOLD 700

From Ground to Landmark

SUB-HEADING / MONTSERRAT SEMIBOLD 600

Structured Delivery. Built Confidence.

BODY COPY / INTER REGULAR 400

We develop from the ground up — practical, structured, and built for lasting value rather than speculative hype.

PRIMARY TYPEFACE

Montserrat

Headings, labels, caps, brand statements, and all display applications. Weights: 700, 800, 900.

BODY TYPEFACE

Inter

Body copy, captions, footnotes, and supporting text across documents and digital.

LABEL / CAPTION

MONTSERRAT 700 UPPERCASE

Section labels, callouts, captions, tags, and data labels throughout.

VISUAL GRAMMAR

# GRAPHIC LANGUAGE

The identity looks like value being structured — architectural grids, elevation stacks, and milestone arcs.

RULE SYSTEM

Orange rule — primary emphasis

Navy rule — structure divider

Grey rule — secondary info

GEOMETRY RULES

Angular, structured, architectural — never freeform or decorative.

# IMAGERY DIRECTION

Real development. Real ground. Real progress. Prefer documentary credibility and architectural composition over polished generic renders.

**LAND**  
Site conditions, topography, context, and access — before intervention begins.

**SITE WORKS**  
Ground clearance, foundations, structural steel — progress made visible.

**STRUCTURE**  
Materials, verticality, building form — the ascent made tangible.

**OCCUPATION**  
People in the space — human use, place quality, and long-term value in action.

SECTION 03

# APPLI- CATIONS

# APPLICATION SYSTEM

Priority rollout kit — the touchpoints that earn trust first and build recognition fastest.

**PROPOSAL DECKS**

Investor and partner confidence. Structured like a credible investment document — not a generic brochure.

**SITE HOARDING**

High visibility and public recognition. Large format: orange bar, wordmark, tagline, and QR.

**WEBSITE**

Clear thesis and immediate conversion. From Ground to Landmark as the hero statement.

**SOCIAL MEDIA**

Visible progress and market presence. Documentary-style milestone posts in repeatable formats.

**BROCHURES**

Project value storytelling. Balance aspiration with evidence, place quality, and delivery proof.

**STATIONERY**

Daily professional consistency. Letterhead, business card, and email signature in brand system.

# PROPOSAL COVER

**DESIGN INTENT**

Proposals feel like structured investment documents — not generic brochures. Navy, structured, evidence-first.

**WHAT TO INCLUDE**

Executive summary · Site context · Feasibility proof ·  
Delivery structure · Commercial model · Team credentials

**TEMPLATE RULE**

Every proposal opens with the primary tagline and ends with a clear next-step call to action. No exceptions.

# SITE HOARDING

**DESIGN PRINCIPLE**

Large, simple, high contrast. Legible from 40 metres.  
Orange left bar = instant recognition from road or aerial view.

**REQUIRED ELEMENTS**

Orange mark · Project name · Coming soon · A Grounza Development · Tagline · QR code + URL

**PRODUCTION NOTE**

Minimum print size: 3m wide. Use UV-stable inks. Backlit version: reverse to white mark on full orange left bar.

# WEBSITE HERO

**HERO FORMULA**

Mark + Tagline headline + Sub-statement + Two CTAs. No slider. No generic render. Immediate clarity on load.

**DIGITAL RULES**

Full-bleed navy hero. Orange CTA. Fast load. Mobile-first layout. No auto-play video. Schema markup for DRC property developer.

SECTION 04

# MESSAGING & GOVERNANCE

# VOICE SYSTEM

Grounded ambition. Specific proof. Confident restraint. Never vague, never hyped, always evidenced.

USE THIS LANGUAGE

- Grounded development
- Land potential identified and proven
- Structured delivery — milestone by milestone
- Enduring value built from feasibility
- Visible progress: what we said, what we did
- From site insight to built form — documented

AVOID THIS LANGUAGE

- Building dreams
- Luxury lifestyle destination
- World class (without proof)
- Iconic before it is earned
- Disruptive property innovation
- Generic aspiration with no evidence

# TAGLINE SYSTEM

PRIMARY **FROM GROUND TO LANDMARK.**

SUPPORT **BUILT FROM THE GROUND UP.**

SUPPORT **WHERE LAND BECOMES LASTING VALUE.**

SUPPORT **GROUNDING DEVELOPMENTS. ELEVATED VALUE.**

# GOVERNANCE RULES

NON-NEGOTIABLES

Define Grounza. Change only with full strategic intent.

- Orange ascent mark — the primary visual signal
- Blueprint navy as the dominant palette
- Ground-to-landmark narrative across all materials
- Condensed, architectural heading typography
- Specific proof and visible progress in messaging
- Clear project endorsement on all branded materials

FLEXIBLE ZONES

Adapt per project, campaign, or context.

- Project-specific imagery and photography direction
- Development sub-palettes within the system
- Local context and cultural motifs per project
- Campaign and project-specific taglines
- Launch asset structures per development
- Brochure content and case study format

EVOLUTION RULE: MODERNISE THROUGH REFINEMENT, NOT REINVENTION.

# QUALITY SCORECARD

STRONGEST ASSET

The orange ascent mark is highly ownable and distinctive in the DRC property market.

PRIORITY GAP

Logo refinement to production quality and live template conversion is the highest-value next step.

8.4  
OVERALL SCORE / 10

# NEXT CREATIVE STEPS

Turn this identity system into operational brand assets — in order of commercial priority.

01

REDRAW THE LOGO SYSTEM

Production vector artwork, full spacing rules, icon-only mark, reverse versions, and project endorsement lockups.

PRIORITY: IMMEDIATE

02

BUILD MASTER TEMPLATES

Pitch deck, proposal cover, site hoarding, brochure cover, social templates, letterhead, and email signature.

PRIORITY: WEEK 1-2

03

BUILD THE PROJECT LIBRARY

Photography style guide, case study format, milestone update template, and full project launch toolkit.

PRIORITY: MONTH 1

04

GOVERN THE BRAND

One-page approval checklist for every public-facing asset. Brief all external suppliers with this document.

PRIORITY: ONGOING

# GROUNZA
